Product data sheet

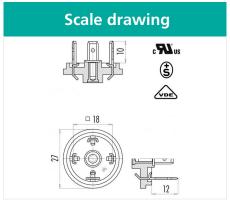

Automation technology - solenoid valve connectors

Size A male connector (panel mount), Contacts: 3+PE, unshielded, solder, IP40 without seal, UL, ESTI+, VDE Product description

Order number 43 1703 000 04

Technical data

General features

Order number Connector design

Version Connector locking system Termination Degree of protection

Cross-sectional area Temperature range from/to Mechanical operation Weight (g)

Customs tariff number

Electrical parameters

Rated voltage 250 V 4000 V Rated impulse voltage Rated current (40 °C) 10 A $\geq 10^{10} \, \Omega$ Insulation resistance Pollution degree Overvoltage category Ш Insulating material group Ш EMC compliance unshielded

Material

Contact body material Contact material Contact plating REACH SVHC

CuZn (brass) Sn (tin) CAS 7439-92-1 (Lead)

PA (UL94 HB)

Product data sheet

Automation technology - solenoid valve connectors

Product description Size A male connector (panel mount), Contacts: 3+PE, unshielded, solder, IP40 without seal, UL, ESTI+, VDE

Area Size A series 210 Order number 43 1703 000 04

Security notices

The connector must not be plugged or unplugged under load. Non-observance and improper use can result in personal injury.

The connectors have been developed for applications in plant engineering, control and electrical equipment construction. The user is responsible for checking whether the connectors can also be used in other areas of application.

Connectors which are used in circuits with voltages dangerous to the touch may only be installed and used by, or under the supervision of, persons with electrical engineering training, taking into account the applicable regulations and standards.

Plug connectors with enclosure protection IP 67 and IP 68 are not suitable for use under water. When used outdoors, the plug connectors must be protected separately against corrosion. For further information on the IP protection classes, please refer to the "Technical Information" download centre.
